with autism, "mental retardation," or cerebral palsy and b) those with psychiatric disabilities (PD), for example those with depression, schizophrenia, or bipolar disorder.

### **Communication with Individuals with Intellectual**

There are a lot of different approaches to how mental health problems should be diagnosed, what causes them and which treatments are most effective. And, unfortunately, there is still widespread stigma and discrimination towards people with mental health problems, and misunderstanding about what different diagnoses mean. However, despite these challenges, it is possible to recover from a ...
