Morphological and compositional evolution of polymeric colloidal monolayer during UV irradiation. ... In this study, we investigated the morphological and compositional evolution polymeric colloidal monolayer during UV irradiation. A PS colloidal monolayer with interparticle bridges was prepared and exposed to the UV light. As a consequence of photochemical reactions containing chain-scission ...

A study of morphological and compositional evolution of nanoprecipitates in the Zr-Nb system and their transformational behavior: Authors: ... The evolution of the chemical composition of the  $\hat{\Gamma}^2$  phase suggested

preference towards metastable compositions having Nb content higher than the equilibrium value. Thermodynamic analysis showed that the metastable chemical compositions are the driving ...
