### **Structured Cabling Introduction & Installation Guide**

A structured cabling system (SCS) is a set of cabling and connectivity products that integrates the voice, data, video, and various management systems of a building (such as safety alarms, security access, energy systems, etc.).

### **Structured Cabling System (SCS)**

Structured cabling design and installation is governed by a set of standards that specify wiring data centres, offices and apartment buildings for data or voice communications using various kinds of cable, most commonly category 5e (CAT5e), category 6 (CAT6), and fibre optic cabling and modular connectors.

1.1 Rules of Structured Cabling for LANs Structured cabling is a systematic approach to cabling. It is a method for creating an organized cabling system that can be easily understood by installers, network administrators, and any other technicians that deal with cables. There are three rules that will help ensure the effectiveness and efficiency of structured cabling design projects. The first ...
