

world history series the pdf

The era from 1400 to 1800 saw intense biological, commercial, and cultural exchanges, and the creation of global connections on an unprecedented scale. Divided into two books, Volume 6 of the Cambridge World History series considers these critical transformations. The first book examines the material and political foundations of the era, including global considerations of the environment, disease, technology, and cities, along with regional studies of empires in the eastern and western ...
