

ww2 a laymans guide pdf

As the title suggests, this is a layman's guide - right up my street. I was hooked from Chapter 1. I suddenly realised that it was not the topic that bored me at school but the way I was taught. This book is a must for anyone studying WW2 but also people like me who missed out on properly learning about this horrific but hugely important period in our history. Well done Scott!

This 'Layman's Guide' has been written to educate, engage and entertain readers - especially those who perhaps have not read too much about WW2 before. Short, sharp chapters are written with a pace and style not normally found in history books (which, let's be honest, can be pretty tough to read sometimes!)
